Real-Life Algorithms

Plant a Seed Worksheet

You can use algorithms to help describe things that people do every day. In this activity, we will create an algorithm to help each other plant a seed.

Cut out the steps of planting a seed below, then work together to glue the six the correct steps, in order, onto a separate piece of paper. Trade your finished algorithm with another person or group and let them use it to plant their seed!

		
PUT POT IN SUNLIGHT	PUT SEED IN HOLE	HUG AN ELEPHANT
		
PUT GLUE ON SEED	FILL POT WITH SOIL	POKE HOLE IN SOIL
		
WATER POT	COVER SEED WITH SOIL	POUR SODA POP IN POT
